Implementation of Student Induction Programme

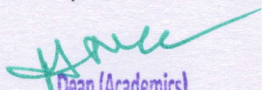

NIFTEM-T is regularly conducting the SIP program with the following objectives to the newly joined 1st year B.Tech Students.

About the Programme

Student Induction Program (SIP) has been introduced by AICTE as an integral part of the model curriculum for B.E/B.Tech students. Purpose of conducting this Student Induction Program is to make the newly joined freshman Engineers to feel comfortable in the new environment, to inculcate in them the ethos and culture of the Institution and bring bondages between students and faculty members.

Objectives of the Program

1. As per the norms of AICTE, Students Induction Program is conducted for the first year freshmen Engineers to help them adapt the new environment.
2. The transition of the students from the school to college life is eased through various programs and activities like Alumni Interaction program. These Interaction programs motivate students to acquire new skills thereby students are able to face the ever changing world of technology.
3. Students from different backgrounds, ideologies and with diverse thoughts come together for education. This Induction program provides space and time for the students to get along with each other and also to accept diverse kind of life style and people.
4. The main intention of the Induction program is to help students adapt the new environment, circumstance and also the expectations of the college. The program aims at blending students within the particular environment. The program is inclusive of various aspects of knowledge like Introduction to Constitution and Cyber Security.
5. Through these programs that are handled by experts from reputed Institutions and Organization helps the freshmen engineers to be aware of the current situation of the society.
6. Programs like Yoga and a talk on Food helps students to be aware of their own mental as well as their physical health. Such programs helped students to develop their Intrapersonal and Interpersonal skills.
7. Introduction to various clubs helps students to build on their innate as well as acquired skills.
8. Fine Arts and Deepam Contest is a stage set for the students to showcase their talents without any hesitation. Introduction on preparing PPT and Effective communication classes are planned for the students, thereby it helps students to cater according to the need of the time.

9. Students Induction Program paves way for the students to understand the concepts and environment of the college. And it follows helps and builds students till the end of their four year engineering program.
10. The Mentor - Mentee system does not stop with the role of the tutor in the first year yet it follows till the end of the fourth of the students.
11. Students Induction Program aims in such a way that it help students to socialize with each other irrespective of diverseness.
12. It induces students to associate themselves to the new and changing Campus environment.
13. It aids students to have good understanding of the norms and the needs of the college.
14. It is a perfect means through which students can analyze their own individual self. Finally it stimulates students to inculcate leadership qualities.
