As per NEP, every Institution shall have inbuilt mechanism for Social and Emotional Learning A crucial component of Education.

As per the National Education Policy (NEP), NIFTEM-T is at the forefront of aligning with the transformative vision for education in India. A cornerstone of this visionary approach is the directive that every educational institution, including NIFTEM-T, shall incorporate an inbuilt mechanism for Social and Emotional Learning (SEL). Recognizing SEL as an indispensable component of education, the NEP emphasizes its pivotal role in shaping individuals holistically. Social and Emotional Learning extends beyond academic knowledge, focusing on the cultivation of life skills such as empathy, effective communication, and resilience. The inbuilt mechanism for SEL within NIFTEM-T aligns seamlessly with the broader educational goal of nurturing not only intellectual but also emotional intelligence. This approach acknowledges the importance of equipping students from NIFTEM-T with the necessary tools to navigate the complexities of the modern world, emotional well-being and interpersonal skills. Through the integration of SEL into its educational fabric, NIFTEM-T plays a key role in nurturing socially conscious and emotionally resilient citizens. This holistic educational approach, as envisioned by the NEP, empowers students at NIFTEM-T to thrive academically, socially, and emotionally, laying the foundation for a more compassionate and empathetic society. In essence, the inclusion of SEL into NIFTEM-T's educational framework reflects the institution's commitment to producing well-rounded individuals capable of making positive contributions to the world beyond the classroom.
