| S.No | | Details of Host Institute |
|-------------|--|----------------------------------|
| 1 | Name of the Host Institute | |
| 2 | Institute Head | |
| 3 | Email id and contact number | |
| 4 | Government/Private | |
| 5 | If Private the percentage contribution for establishing the common incubation Facility? | |
| 6 | Registration Details (for private agency) | |
| 7 | Name of the Mentor Institute | |
| 8 | Incubation Center applied for (which processing line) | |
| 9 | Building and space available for the proposed incubation facility | |
| 10 | Whether the space available for incubatee /startups in the proposed building | |
| 11 | If Yes, give the details If No, propose the plan | |
| 12 | Existing facility for the proposed common incubation center | |
| 12 | If Yes , address the gap | |
| 13 | Activities carried out currently | |
| 14 | List of existing equipment available for the proposed incubation center | |

| | | |
|----|---|--|
| 15 | Does the host institute requires upgradation of the existing facility | |
| 16 | If Yes , address the gap | Flooring has to be made according to FSSAI standards. Electrical and plumbing works has to done to facilitate functioning of incubation centre |
| 17 | If upgradation required, cost required for the same | |
| 18 | Is food testing facility available at the host institute | |
| 19 | If No, mention the equipments required with cost | |
| 20 | List out the GMP / GHP Practices to be followed in the proposed incubation center. | |
| 21 | Measures to be adopted for human / food safety | |
| 22 | Expertise in the relevant processing | |
| 23 | Modality to fix the external agency to run the common incubation centre | |
| 24 | Modalities for fixing commercial charges to run the facility | |
| 25 | Suitability of the proposed facility for processing other commodities | |

| | | |
|-----------|--|--|
| 26 | Will the host institute provide water, electricity to run the common incubation facility | |
| 27 | Annual Maintenance Plan for the machineries installed at incubation centre | |
| 28 | Expected number of entrepreneurs to be benefitted through common incubation facility per year | 400 – Milk 200 – Milk Based Product |

30. Justification for the proposed facility at the Host Institute (Modify as per the proposal)
(Raw material, nearness to market, expected demand)

Milk production is a very important part of the agricultural economy in the state of Punjab. Milk production in Punjab is increasing throughout the year in spite of decrease in bovine and ovine population. The reason being is that government is taking much more emphasis on the breed improvement of dairy animals with this advancement DAHD operating 18 central livestock organizations and allied institutions. The milk production was increased from 3.22 million tonnes to 10.01 million tonnes from 1980-81 to 2013-14 with a growth rate of 3.48 per cent per annum. The % share of Punjab in the central pool was decreasing over the years. The capability of Bathinda dairy cooperative to accomplish its full productive potential is affected by the availability and quality of extension services being delivered to the farmers apart from the mobilization of its resources and economic growth. Therefore, to encourage farmers to adopt dairy as an entrepreneur, a technically advanced incubation center is necessary to avail common services for the farmer entrepreneurs.

31. Map of the Host Institute showing accessibility for transport and market

32. Plan for upgrading/setting the proposed facility

(Details of space available, machineries required with cost and capacity)

- i. Land required for setting the proposed plant : 6600 sq.ft
- ii. Approximate cost: 275.25 lakhs

Cost break up for machineries for proposed processing line as expressed by FPOs

A.The possible processing lines that can be established for common incubation facility is given below with the details and cost of machineries required for processing Dairy, Fruits & Vegetables:

| Cost for Dairy processing and Fruits & Vegetables processing | | | | | |
|---|---|--|------------|-----------------------|-----------------|
| S.No | Crop Processing Line | Machineries required for processing | Qty | Cost in Lakhs* | Capacity |
| 1 | Milk Pasteurization (Market Milk Section) | | | | |
| | | Modular Milk Pasteurizer provided with balance | 1000 L/hr | 25 | 1 |
| | | Homogenizer | 1000 L/hr | 8.5 | 1 |
| | | Cream Separator | 250 kg/hr | 7.5 | 1 |
| | | Liquid Milk Packaging Machines | 500 L/ hr | 12.5 | 1 |
| | | Sub-total | | 53.5 | |
| 2 | Fat rich Dairy Products Section | | | | |
| | | Butter Churner | 100 kg/h | 8.0 | 1 |

| | | | | | |
|----------|--|--|---------------|-------|---|
| | | Ghee Kettle Double Jacketed operated with steam | 200 kg/h | 4.5 | 1 |
| | | Butter Packaging Machine | | 7.5 | 1 |
| | Accessories for dairy processing | Cold Room | 1 | 10.0 | 1 |
| | | Storage racks | 5 | 1.00 | 1 |
| | | Refrigerator | 3 | 0.75 | 2 |
| | | Lactometer, Gerber apparatus, Utensils, storage containers | | 10 | |
| | | | Sub-Total | 41.75 | |
| 3 | Primary Processing of Fruits & Vegetables | | | | |
| | | Washing- bubble washing, roller washing with slant conveyer belt or jet washing mechanism/ washing tub with conveyor roller system | 500 Kg/hr | 10 | 1 |
| | | Curing facility | 500kg | 3 | 1 |
| | | Precooling | 250Kg/h | 4 | 1 |
| | | Size Grader | 250 Kg/h | 5 | 1 |
| | | Cold storage 5 deg C | 1000kg | 5 | 1 |
| | | Multifunctional Vegetable Cutters | 300-500/h cap | 5 | 1 |
| | | | Sub-total | 32.00 | |
| 4 | Juice & Beverages Processing Section | | | | |

| | | | | | |
|----------|-----------------------------|---|-----------------|-----|---|
| | | Fruit pulper cum finisher | 200 Kg/h | 4 | |
| | | Hellicolloidal juice extractor | 500 Kg/h | 10 | |
| | | Raw juice collection tank | 200 l | 1.5 | |
| | | Raw juice screw transfer pump for automatic delivery | 100l/h | 5 | |
| | | Blending Tank with agitator | 200 l | 6 | |
| | | Homogenizer | 200 ltr/h | 1 | |
| | | Tube in tube filter for automatic delivery | 200 ltr/h | 1 | |
| | | Processed juice collection tank | 200 l | 1.5 | |
| | | Processed juice transfer pump | 100l/h | 10 | |
| | | Tubular pasteurizer with all accessories and fittings | 200 l/h | 10 | |
| | | PET bottle rinsing / washing machine | 100 bottles/min | 2 | |
| | | Piston filler with capping provision | 100 l/h | 5 | |
| | | Cooling tank | 500 l | 3 | |
| | | Labelling and printing system | 100 bottles/min | 5 | |
| | | | Sub- Total | 65 | |
| 5 | Paste Making Section | | | | |
| | | Ginger washer | 50kg/ batch | 3 | 1 |

| | | | | | |
|----------|-------------------------|---|-------------------|--------|---|
| | | Ginger slicer | 100kg/ batch | 4 | 1 |
| | | Garlik clove seperator | 200kg/hr | 2 | 1 |
| | | Garlic peeler | 40 kg/hr | 2 | 1 |
| | | Ginger garlic paste pulverizer | 100kg/hr | 3 | 1 |
| | | Pouch packaging machine -band sealer | 100/hr | 2 | 1 |
| | | Onion Detopper | 500 Kg/h | 5 | 1 |
| | | Onion Grader | 1.5 ton/h | 2 | 1 |
| | | Onion slicer | 200 Kg/h | 2 | 1 |
| | | Chilli destalking machine | 200 Kg/h | 5 | 1 |
| | | Blancher | 200 Kg/h | 3 | 1 |
| | | Pouch / Spout Packaging machine for different capacities | 100-500 pouches/h | 15 | 1 |
| | | Sub-Total | | 48 | |
| 6 | Food Testing Facilities | | | 25 | |
| 7 | Accessories | Stove, cutter, spoons, utensils, storage racks, work tables | | 10 | |
| | | Grand Total | | 275.25 | |

B.Waste Management/ By- Product Utilisation

C. Waste Disposal

| Whether the host institute has Effluent treatment / Solid Waste management facility ? | | | | |
|--|---|--|--|--|
| 1 | If yes, the same can be utilized for waste management of the proposed incubation center? | | | |
| 2 | If No, Propose the plan for waste management from the incubation center. | | | |

Summary of the cost break up

| S.No | Processing lines | Approx. cost (in lakhs) |
|-------------|---|--------------------------------|
| 1 | Milk Pasteurization Section | 53.5 |
| 2 | Fat rich dairy products section Accessories for dairy processing | 41.75 |
| 3 | Primary Processing of fruits & Vegetables | 32.00 |
| 4 | Juice & Beverage Processing Section | 65.00 |
| 5 | Paste Making Section | 48.00 |
| 6 | Food testing facilities | 25 |
| 7 | Accessories | 10 |
| | Total | 275.25 |

33.Can the facility be utilized to process other crops. If so, list out the allied crops that can be processed at the centre

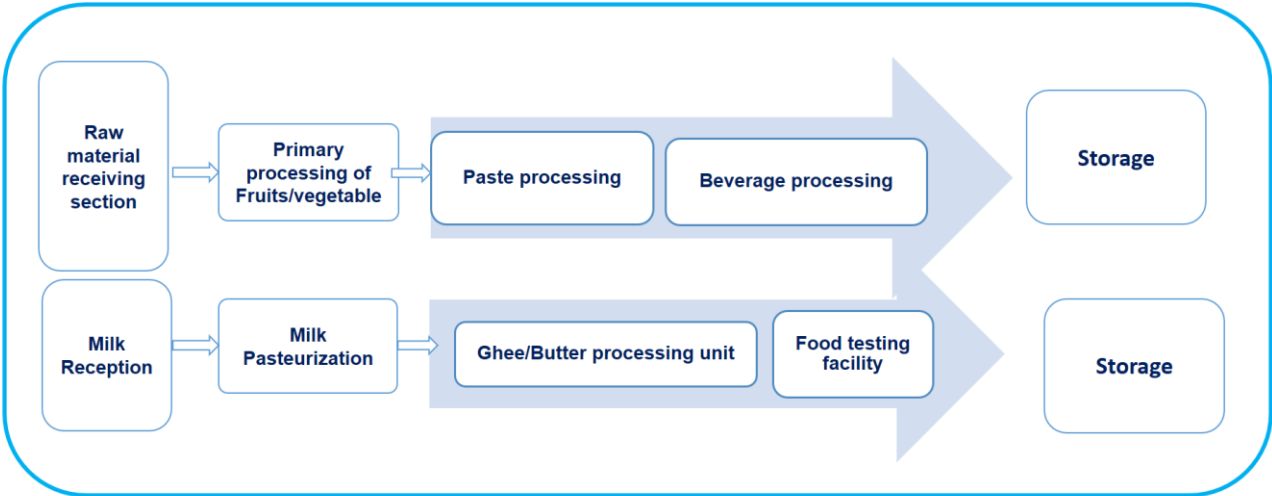

34. Feasibility report for commercially running the Common incubation facility

(To be provided by Host Institute)

- a. Business plan for running the common incubation center
- b. Minimum 5 years of operating plan should be provided
- c. Man power requirement
- d. Minimum operational hours/ days per year
- e. Operational cost involved (water, electricity, raw material cost, fuel charges, salary, etc.,)
- f. Fixation of utility charges
- g. Details of the agency identified to run the proposed incubation facility
- h. Tripartite agreement format to be signed by private agency, state level nodal agency and the Host Institute

35. Layout for the proposed facility

Incubation centre Plant Layout

36. Recommendation of SNA with Signature

37. Signature of the Head of the SLTI/ Host Institute with Designation.

**Detailed Project Report for establishing common incubation center
for processing food grains, millets and spices**

| 27 | Annual Maintenance Plan for the machineries installed at incubation centre | |
| 28 | Expected number of entrepreneurs to be benefitted through incubation center per year | |

29. Justification for the proposed facility at the Host Institute (Modify as per the proposal)

(Raw material, nearness to market, expected demand)

The Host Institute is located near delta region and where large number of farmers are involved in agriculture. Food products are available throughout the year and the farmers are engaged only in primary processing. The awareness on value addition of food crops is minimum among the farmers and the post-harvest losses increase due to improper facility and knowledge on processing. Hence setting of common incubation centre to process food grains, millets and spices for food processing at the proposed Host Institute can support many farmers in this region to utilize the facility and improve their economy by minimizing post-harvest losses.

30. Map of the Host Institute showing accessibility for transport and market

31. Plan for upgrading/setting the proposed facility

(Details of space available, machineries required with cost and capacity)

On discussion with farmers, FPOs/SHG, the Host Institute proposes to set incubation centre for processing multi food commodities. Accordingly, the land requirement, processing lines, machineries and the respective cost obtained from Expert institutes are given below.

- i. Land required for setting the proposed plant: 6900 sq.ft
- ii. Approximate cost: 270 lakhs

A. The possible processing lines that can be established for common incubation facility is given below with the details and cost of machineries required for processing Millets, Food grains and Spices:

| Cost for Processing of millets/grains/spices* | | | | | |
|--|--|--|-----------------|-----------------------|-----------------|
| S.No | Crop Processing Line | Machineries required for processing | Qty | Cost in Lakhs* | Capacity |
| 1 | Primary Processing Line for Small Millets (Foxtail, Barnyard, Proso, Little, Kodo and Browntop Millets) | | | | |
| | Primary Processing of Minor millet | Cleaning cum De-stoner cum Grader | 200 - 250 Kg/hr | 3.5 | 1 |

| | | | | | |
|----------|--|--|----------------------------|-------------------|-----|
| | (Foxtail, Barnyard, Proso, Little and Kodo millet) | De-huller | 200 - 250 Kg/hr | 3.0 | 1 |
| | | Grader cum Aspirator/Gravity Separator | 200 - 250 Kg/hr | 3.0 | 1 |
| | | Packaging Machine | 500-1000 packs/hr | 7.5 | 1 |
| | | Weighing Balance | 1 -50 Kg Range | 0.5 | 1 |
| | | Polisher | 200 - 250 Kg/hr | 5.0 | 1 |
| | | Tray Dryer | 96 trays | 5.0 | 1 |
| | | Color Sorter | 250 kg/hr | 4.0 | 1 |
| | | | Packing Line (Band Sealer) | 500-1000 packs/hr | 0.5 |
| | | | Sub-total | 32 | |
| 2 | Primary Processing Line for Major Millets (Sorghum, Pearl and Finger Millets) | | | | |
| | Primary Processing of Major millets (Finger, Jowar and Pearl Millet) | Cleaning cum De-stoner cum Grader | 200 - 250 Kg/hr | 3.5 | 1 |
| | | Grader cum Aspirator/Gravity Separator | 200 - 250 Kg/hr | 3.0 | 1 |
| | | Packaging Machine | 500-1000 packs/hr | 7.5 | 1 |
| | | Weighing Balance | 1 -50 Kg Range | 0.5 | 1 |
| | | Polisher | 200 - 250 Kg/hr | 5.0 | 1 |

| | | | | | |
|----------|--|--|-------------------|------|---|
| | | Tray Dryer | 96 trays | 5.0 | 1 |
| | | Color Sorter | 250 kg/hr | 4.0 | 1 |
| | | Packing Line (Band Sealer) | 500-1000 packs/hr | 0.5 | 1 |
| | | | Sub-Total | 29 | |
| 3 | Secondary Processing: Milling of grains into flour | | | | |
| | Millet flour & Millet semolina (Coarse, Fine and Medium) made of Sorghum, Pearl Millet, Finger Millet, Foxtail Millet, Kodo Millet, Proso Millet, Barnyard Millet, Little Millet | Flour/semolina line (mini) – Hammer type | 250 - 500kg/hr | 15.0 | 1 |
| | | Ribbon Blender | 150 - 200kg/hr | 2.0 | 1 |
| | | Conical Roaster | 150 - 200kg/hr | 2.0 | 1 |
| | | Packaging Machine (big) | 500-1000 packs/hr | 10.0 | 1 |
| | | Weighing Balance | 1 -50 Kg Range | 0.5 | 1 |
| | | Packing Line (Band Sealer) | 500-1000 packs/hr | 0.5 | 1 |
| | Processing of rice/wheat into flour | Rice Grinder/pulverizer | 250 kg/h | 2 | 1 |
| | | Sieve shaker/Sifter | 100 kg/h | 3.5 | 3 |
| | | Storage tank/bin | 250 kg/bin | 3 | 2 |
| | | Packaging machine | 250 Kg/h | 5 | 1 |
| | | | Sub-total | 43.5 | |
| 4 | Secondary processing of turmeric / ginger/Chilli/ for spice powder/ curry powder | | | | |

| | | | | | |
|----------|--|--|-------------------|-----------|------|
| | | Tray Dryer | 96 trays | 5.0 | 1 |
| | | Roaster (rotary type) | 100 kg/batch | 3.00 | 1 |
| | | Micro pulveriser | 100 kg/h | 10.00 | 2 |
| | | Vibro sifter | 100 kg/h | 2.00 | 1 |
| | | Blender | 50 kg/batch | 2.00 | 1 |
| | | Continuous form fill sealing machine | 40 packs per min | 10.00 | 2 |
| | | Solar Dryers with multi rack tray system | 1000 kg/batch | 5.00 | 1 |
| | | | Sub-total | 37 | |
| 5 | Cold Extrusion Line (RTC) | | | | |
| | Pasta & Vermicelli made of Sorghum, Pearl Millet, Finger Millet, Foxtail Millet, Kodo Millet, Proso Millet, Barnyard Millet, Little Millet | Cold extruder | 250 Kg/hr | 15.0 | 1 |
| | | Steamer | 250kg/hr | 5.0 | 1 |
| | | Tray Dryer | 96 trays | 5.0 | 1 |
| | | Packaging Machine (band sealing machine) | 500-1000 packs/hr | 1.5 | 1 |
| | | Weighing Balance | 1 -50 Kg Range | 0.5 | 1 |
| | | Packing Line (Band Sealer) | 500-1000 packs/hr | 0.5 | 1 |
| | | | | Sub-total | 27.5 |
| 6 | Processing of Bakery products | | | | |
| | | Planetary mixer | 100 kg/h | 3 | 1 |
| | | Dough kneader | 100 kg/h | 2 | 1 |

| | | | | | |
|-----------|---------------------------------------|--|----------------------|------|---|
| | | Dough sheeter | 100 kg/h | 3 | 1 |
| | | Rotary oven | 100 kg/h | 5 | 1 |
| | | Bread slicer | 100 kg/h | 2 | 1 |
| | | Cookies dropper | 100 kg/h | 5 | 1 |
| | | Weighing Balance | 1 -50 Kg Range | 1 | 1 |
| | | Packing Line (Band Sealer/Hand sealer) | 500-1000 packs/hr | 4.0 | 1 |
| | | | Sub-total | 25 | |
| | | | | | |
| 7 | Flaking of millets/food grains | | | | |
| | | Grain Roaster | 150kg/hr | 5.0 | |
| | | Roller flaker | 250/hr | 10.0 | |
| | | Sieving machine | 250kg/hr | 3.0 | |
| | | Tray Dryer | 96 trays | 5.0 | |
| | | Packing machine with nitrogen filling | 500-1000 packs/hr | 15.0 | |
| | | | Sub-total | 38 | |
| 8. | Food testing facilities | Digital refractometer, thermometer, pH meter, other minor instruments, Refrigerator | 1 each | 25 | |

| | | | | | |
|-------------|----------------------|--|--|-------|--|
| 9. | Accessories | Stove, baking moulds, trays, cutter, spoons, utensils, racks | | 10 | |
| 10. | Fire safety measures | Fire extinguishers | | 3 | |
| Grand Total | | | | 270.0 | |

* As per the cost received from Expert Institutes namely IIT-Kharagpur, IHR-Bengaluru, IISR-Calicut

B.Waste Management/By-product Utilisation

C. Waste Disposal

| Whether the host institute has Effluent treatment / Solid Waste management facility ? | | | | |
|--|---|--|--|--|
| 1 | If yes, the same can be utilized for waste management of the proposed incubation center? | | | |
| 2 | If No, Propose the plan for waste management from the incubation center. | | | |

Summary of the cost break up

| S.No | Processing lines | Approx. cost (in lakhs) |
|-------------|---|--------------------------------|
| 1 | Primary Processing of Minor millet | 32 |
| 2 | Primary Processing of Major millets | 29 |
| 3 | Secondary Processing for Milling of grains into flour | 43.5 |

| | | |
|-----------|--|-------------|
| 4 | Secondary processing of turmeric / ginger/Chilli/ for spice powder/ curry powder | 37 |
| 5 | Cold Extrusion Line (RTC) | 27.5 |
| 6 | Processing of Bakery products | 25 |
| 7 | Flaking of millets/food grains | 38 |
| 8 | Food testing facilities | 25 |
| 9 | Accessories | 10 |
| 10 | Fire safety measures | 3 |
| | Total | 270 |

32. Can the facility be utilized to process other crops. If so, list the allied crops that can be processed at the centre?

Yes, the proposed facility can be used for:

- Primary Processing: Integrated packing of fresh fruits and vegetables like guava, mango, chilli, tomato
- Primary processing of Millets namely finger millet, pearl millet and Jowar
- Secondary processing of food grains like rice, wheat, major millets, pulses, RTC food mixes into flour
- Secondary processing of spices namely cumin, aniseed, turmeric, pepper and spice mixes into flour
- Bakery products processing line
- Processing of pasta

33. Will the host Institute make use of the machines already available for the proposed incubation centre?

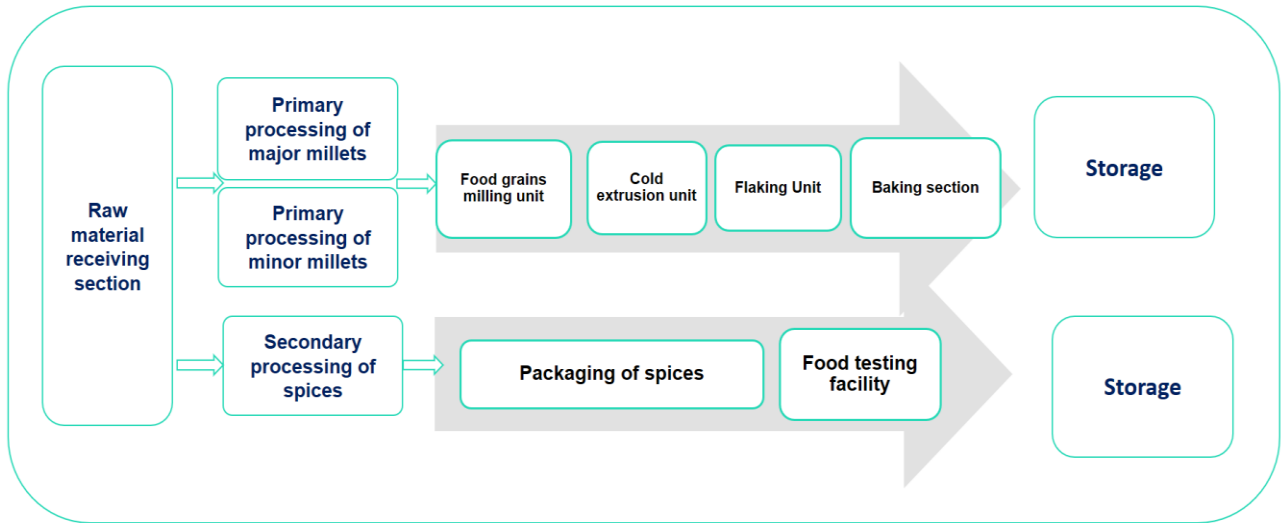

34. Feasibility report for commercially running the Common incubation facility

(To be provided by Host Institute)

- a. Business plan for running the common incubation center
- b. Minimum 5 years of Operating plan should be provided.
- c. Man power requirement
- d. Minimum operational hours/ days per year
- e. Operational cost involved (water, electricity, raw material cost, fuel charges)
- f. Fixation of utility charges
- g. Details of the agency identified to run the proposed incubation facility
- h. Tripartite agreement format to be signed by private agency, state level nodal agency and the Host Institute

35. Layout for the proposed facility

Incubation center Plant layout

36. Recommendation of SNA with Signature

37. Signature of the Head of the SLTI/ Host Institute with Designation.
